

HMS Family,

Today in education, more and more demands are put on schools. Houston Middle is ahead of the game! I have an outstanding network of support. Our superintendent, the faculty and staff at Houston Middle, parents, and the city of Germantown are committed to excellence for all of our students. My sincere belief is that all students can achieve outstanding success. All students are to feel as members of one learning community.

My goal is to actively encourage and support the involvement and participation of parents and community members in the educational process. We can be nothing short of a superstar school by working in a collective manner to motivate all students to do their best. I am passionate about making a difference and thrilled to serve as the principal of Houston Middle School.

Thank you,

Liz Dias
